HomePod

One pod. Many possibilities.

A safe haven. A workspace. A place to call your own.

FLEXIBLE SPACES, BUILT AROUND YOU

HomePod creates modular spaces for the people and purposes that need them. From a single pod to a wider village, layouts, facilities and finishes are developed around your intended use and site.

A SINGLE SAFE HAVEN

A HomePod can provide an initial safe haven for women in refuge, or anyone needing somewhere safe to settle and restart life.

Support arrangements are developed with the relevant delivery partners

around residents' needs.

GARDEN ROOMS, HOME OFFICES AND MORE

Create a place to work, relax, pursue a hobby or use in another way that suits you. Tell us what you want your HomePod to be, and we can develop the design around your requirements.

THE HOMEPOD VILLAGE PATHWAY

For larger housing projects, several HomePods can bring accommodation and support together. Where suitable partnerships are in place, practical support, training, employment opportunities and move-on planning can help residents progress towards independent living.

DESIGN TO SUIT YOUR PROJECT

Choose individual pods, groups of pods or bespoke configurations. Sleeping, storage, kitchenette, shower and WC provision varies by design. The final layout, services, site suitability and approvals follow the intended use and project specification.

HomePod. Your space. Your purpose. Your fresh start.
